

The RES Forum Opens its First Branch in France

London, 31st March 2015 - The RES Forum today announced that it has reached an agreement with Mr Morgan Lott, Head of International Business Development of Seegmuller, French member of the UniGroup Relocation Network (UGRN), for the creation of a new RES Forum Branch in France. This is a natural extension of the long-standing Technical Partnership which The RES Forum has enjoyed with UGRN over a number of years.

Morgan will provide a French focus to help grow the RES Forum membership across France drawing upon a wealth of knowledge and experience within Global Mobility and will act as focal point and neutral group facilitator for the membership in France.

The new combined group will collaborate on shared projects, research and learning initiatives, facilitate collaboration between members and organise RES Forum member events in France, supported by the global RES Forum leadership and local RES Forum partners and corporate HR ambassadors & long-term RES Forum members.

David Enser (The RES Forum) said: “We are delighted to have partnered with Morgan and his team in France. This is an exciting initiative for The RES Forum – our first branch partnership. We have big ambitions to grow the RES membership through a combination of digital expansion and engagement and local representation (branches) in key mobility markets. Our intention is to work with Morgan in shaping this branch model that we can subsequently roll out to our other target markets.”

Morgan Lott (UGRN Seegmuller) said: “We are also delighted to have the opportunity to drive the development of The RES Forum within France. For UniGroup Relocation Network this is an extension of the existing long term relationship with The RES Forum. It adds a new dimension of local representation within the RES Forum global digital network. We believe this creates a good balance and will lead to further growth, interaction and engagement amongst members. I genuinely believe The RES Forum values and culture of collaboration, research and shared learning will resonate well with French mobility professionals.”

The RES Forum (www.theresforum.com) was created in 2006 as an independent community for International HR & Mobility professionals and is now the largest and most active network, specialising in global mobility survey data, modelling and analytics. Over 629 members from 340 of the world's leading companies in 40 countries, all mobility professionals, have joined the RES Forum and are active participants in knowledge sharing in an increasingly growing online community.

UniGroup Relocation Network (UGRN: www.ugrn.com) offers moving and destination services to multinational organisations and private customers. With regional headquarters in Amsterdam, St. Louis and Hong Kong, the UniGroup Relocation Network has more than 1,000 service centres, relocating customers in 180 countries. As a cooperative owned by its member companies, each a prominent force in its own local market, the UniGroup Relocation Network has a structure unique in the relocation industry, and one that guarantees the highest levels of service and quality for all its clients.
