

The RES Forum Expands Footprint in Asia Pacific

London, 24th July 2015 - The RES Forum today announced that it has concluded an agreement with Mr Steve Lewis of (Silk Road Services), long term Asia expatriate and expert HR & Relocation industry figure, for the establishment of local RES Forum branches in China, Hong Kong and Singapore.

Steve will drive the Asia Pacific RES Forum agenda and help to grow the RES Forum presence across the region, drawing upon a wealth of knowledge and experience within Global Mobility, as well as acting as focal point and neutral group facilitator for the membership in the region.

The new RES Forum Asia organisation will collaborate on shared projects, research and learning initiatives, facilitate dialogue between members and organise RES Forum member events in multiple Asia locations, supported by the global RES Forum leadership, local RES Forum partners and corporate HR ambassadors & long-term RES Forum members.

Andrea Piacentini (The RES Forum) said: "We are delighted to have partnered with Steve. This is an exciting initiative for The RES Forum, and a key piece of our broader internationalisation strategy. We have big ambitions to grow the RES membership through a combination of digital expansion and engagement and local representation (branches) in key mobility markets. We have been present in Asia for some years already and, with a new alliance and clear priority on the region, we are excited about our future here!"

Steve Lewis said: "I am also delighted to have the opportunity to drive the development of The RES Forum throughout Asia Pacific. This is a natural extension of my existing long term relationship with The RES Forum. It adds a new dimension of local representation within the RES Forum global digital network. I believe this creates a good balance and will lead to further growth, interaction and engagement amongst members co-ordinated by myself. The RES Forum values and culture of collaboration, research and shared learning will resonate well with Asia-based mobility professionals."
