

The RES Forum Introduces a Virtual Education Programme: RES Forum Learning Lab

The RES Forum Learning Lab will equip HR professionals with the knowledge they need to become leaders in global mobility.

[The RES Forum](#), an independent community for international HR and mobility professionals, has partnered with corporate training provider, Knowledge Anywhere, to deliver a virtual education programme to its 1,300+ members.

The RES Forum's new education programme, *RES Forum Learning Lab*, will arm member organisations with the knowledge they need to manage international assignments and solve global HR issues. Serving as a centralised learning platform for all topics related to global mobility, RES Forum Learning Lab will give members the opportunity to learn and obtain certification on topics including international compensation and benefits, international HR and global mobility. The information provided by RES Forum Learning Lab will be delivered through a cloud-based software program that can be accessed from virtually any mobile device - allowing member organisations and professionals to instantly retrieve the information they need from any location or time zone.

"Professional enrichment and the pursuit of knowledge are central to the founding mission of The RES Forum. With RES Forum Learning Lab, we can further our vision of building an international knowledge network centred around the topics within global mobility and deliver enhanced value to our members," said The RES Forum Partner, David Enser.

Chief Executive Officer of Knowledge Anywhere, Charlie Gillette, said: "With a cloud-based training Learning Lab, The RES Forum will be able to extend its vast knowledge in all things within global mobility to its diverse network of international member organisations like it never has before. We are excited to have the opportunity to work alongside The RES Forum as they continue to innovate and provide thought leadership products and services in international HR."

The first product, intended for entry level practitioners and supplier business development professionals, will be launched in August 2017. This will be followed up with a second product targeted at global mobility professionals to be launched in December 2017.

About The RES Forum

Founded in 2006, The RES Forum has quickly become the leading international HR and global mobility advisor to 1,300+ members within 670 companies in 38 countries. Prized for its sharing culture and its best-in-class technical partners, the RES Forum is trusted by organisations like Coca-Cola, Citi Bank, GE, Google and more to provide global mobility survey data, modelling and analytics.

About Knowledge Anywhere

Founded in 1998, Knowledge Anywhere is a corporate training provider specialising in cloud-based learning management software, online curriculum development and e-learning consulting for medium to large enterprises. Knowledge Anywhere has helped organisations like Ford Motor Company, Siemens Healthineers and Microsoft improve the consistency, accessibility and effectiveness of their corporate training programs.
